

Comment from Government Member Stephanie Tatham on *Identifying and Reducing Burdens in Administrative Processes*
November 6, 2023

Line 33: Insert “No.” before A-11.

Lines 65-73: Replace “develop and disseminate new standardized methods for agencies to measure the burdens associated with their programs” with “provide agencies with additional guidance for measurement and consideration of administrative burden and foregone benefits and services, as well as examining the potential advantages and disadvantages of administrative data sharing.” Move “This guidance could take many forms, including written guidance or agency-specific or government-wide training” to after the revised sentence.

Line 74: Add “and related implementation efforts” after “Conference.”

Recommendation 15: Replace with “Agencies should identify unnecessary administrative burdens that are required by statutes in their Paperwork Reduction Act (PRA) Supporting Statements and in their annual proposed legislative program submissions to OMB under OMB Circular No. A-19.”
