

Accessibility at ACUS: Notice of Rights

Section 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794d)

The Administrative Conference of the U.S. (ACUS) is committed to making its Information and Communication Technologies (ICT) accessible to individuals with disabilities based on the requirements of Section 508 of the Rehabilitation Act of 1973, as amended. Section 508 requires agencies, during the procurement, development, maintenance, or use phases of ICT, to ensure that individuals with disabilities have access to and use of ICT information and data comparable to the access and use afforded to individuals without disabilities (i.e., “ICT accessibility”), unless an undue burden would be imposed on the agency.

Additional information on Section 508 can be found at the websites for the [U.S. Access Board](#) and the [General Services Administration](#).

The Conference is committed to providing resources that are accessible to individuals of all abilities. If you find any of our information or products are inaccessible, please contact us by e-mail at info@acus.gov. Please reference the specific information believed to be non-compliant with Section 508 (and include the web address/URL, if applicable) in any inquiry or complaint. This will help us address the issue more quickly.

Architectural Barriers Act of 1968 (42 U.S.C. §§ 4151-57)

The Architectural Barriers Act (ABA) requires access to facilities that are designed, built, altered, or leased with federal funds. The U.S. Access Board is the federal agency responsible for enforcing the ABA. The [accessibility standards](#) and [information about filing a complaint](#) at the U.S. Access Board may be found on the that agency's [website](#).
